

PHARMACONEX

PHARMA AWARDS

Organized by

PHARMACONEX
In association with CPHI

CATEGORIES

1. Excellence in Drug Delivery & Packaging
2. Excellence in Patient Care
3. Excellence in Exports
4. Excellence in Sustainability
5. Excellence in Digital Transformation
6. Excellence in Machinery

EXCELLENCE IN DRUG DELIVERY & PACKAGING

This category acknowledges remarkable achievements in drug delivery and packaging, focusing on innovative solutions that improve drug stability, efficacy, and environmental sustainability. The award recognizes advancements in drug delivery systems that offer novel methods for enhancing patient compliance and therapeutic outcomes. It celebrates innovations that contribute to increased drug stability and efficacy, ensuring safe and effective treatment for patients. Additionally, it emphasizes packaging solutions that reduce environmental impact, highlighting sustainable practices and materials that minimize waste and promote eco-friendly approaches in the pharmaceutical industry.

CRITERIA

- Drug Delivery System Extent of Innovation
- Enhanced Drug Stability & Efficacy
- Ease of Use & Compliance
- Environmental Impact

EXCELLENCE IN PATIENT CARE

This award honors exceptional achievements in patient care within the pharmaceutical industry, highlighting innovative and impactful initiatives that significantly enhance patient outcomes and experiences. It recognizes organizations that demonstrate a strong commitment to patient-centric approaches, employ groundbreaking technologies or methodologies, and implement comprehensive support programs. The focus is on initiatives that improve the quality, efficiency, and accessibility of care, ultimately leading to better health outcomes and enhanced patient satisfaction.

CRITERIA

- Patient Outreach Programs
- Physician Outreach Programs
- Pharmacist Outreach Program
- Impact Achieved from Outreach Programs

EXCELLENCE IN EXPORTS

This award celebrates outstanding accomplishments in pharmaceutical exports, recognizing companies that have significantly expanded their international market presence and demonstrated excellence in global trade. It honors organizations that have successfully navigated the complexities of international regulations, shown substantial growth in export volumes, and contributed to the global availability of high-quality pharmaceutical products. Key considerations include innovative market entry strategies, sustainable practices, and a strong commitment to maintaining high standards of product quality and safety in international markets.

CRITERIA

- Export Percentage
- Year-on-Year Growth in Exports
- Export Product Pipeline
- Certificates for Exports

EXCELLENCE IN SUSTAINABILITY

Recognize companies that demonstrate a strong commitment to sustainable practices and environmentally responsible initiatives in the pharmaceutical industry. Participants will be assessed on their efforts to reduce carbon footprint, minimize waste generation, promote eco-friendly manufacturing processes, and contribute positively to society and the environment.

CRITERIA

- Reducing Carbon Footprint
- Contributing Positively to Society & Environment
- Future Plans for Sustainability
- ESG Reports

EXCELLENCE IN DIGITAL TRANSFORMATION

Recognize companies that have successfully implemented digital technologies and data-driven strategies to optimize various aspects of their pharmaceutical operations. Participants will be evaluated based on their use of digital tools for research and development, supply chain management, quality control, customer engagement, and overall business efficiency.

CRITERIA

- Commercial Strategy Development
- Supply Chain Management
- Business Performance Monitoring
- Quality Control Tools
- Advanced R&D Tools

EXCELLENCE IN MACHINERY

Recognize companies that demonstrate a strong commitment to sustainable practices and environmentally responsible initiatives in the pharmaceutical industry. Participants will be assessed on their efforts to reduce carbon footprint, minimize waste generation, promote eco-friendly manufacturing processes, and contribute positively to society and the environment.

CRITERIA

- Efficiency
- Manufacturing Streamlining
- Safety
- Reliability & Scalability
