

1-3 September 2025

Egypt International Exhibition Center

Explore the Cleanroom Technology Conference at Pharmaconex

As pharmaceutical manufacturing in Africa continues to expand, cleanroom infrastructure is becoming a mission-critical component for regulatory compliance and high-quality drug production. In response to this need, Pharmaconex 2025 is hosting the Cleanroom Technology Conference, a first-of-its-kind platform in North Africa that brings together global experts, solution providers, and local stakeholders.

Here’s what makes this conference unmissable for pharma professionals, engineers, and regulatory leaders working on sterile environments across Africa.

- Cleanroom Speakers Egypt: Global Experts, Local Impact:**
- The Cleanroom Technology Conference will welcome top cleanroom speakers in Egypt, including international regulators, cleanroom architects, contamination control specialists, and pharmaceutical manufacturers. Attendees can expect:
- Technical case studies
 - CPD-accredited regulatory sessions
 - Practical insights tailored to the African market
 - Speakers will address global GMP trends and their regional implementation, offering attendees both strategic and actionable takeaways.

Cleanroom Industry Expo: Explore Technology Up Close

Adjacent to the conference hall, the cleanroom industry expo at Pharmaconex provides a hands-on experience with:

- Modular cleanroom structures
- HVAC and filtration systems
- Environmental monitoring devices
- Automation and digital control platforms

The expo allows attendees to connect directly with suppliers and manufacturers, test solutions, and compare specs on-site.

Cleanroom Pharma Conference Africa: Structured to Accelerate Learning

This is the only dedicated cleanroom pharma conference in Africa, designed around three focused tracks to cover every aspect of modern cleanroom development and operation:

Track 1: Cleanroom Design & Regulatory Compliance

- Facility layout and ISO classification planning
- EU GMP Annex 1 and WHO TRS implementation
- Risk assessment for regulatory audits
- Validation and qualification best practices

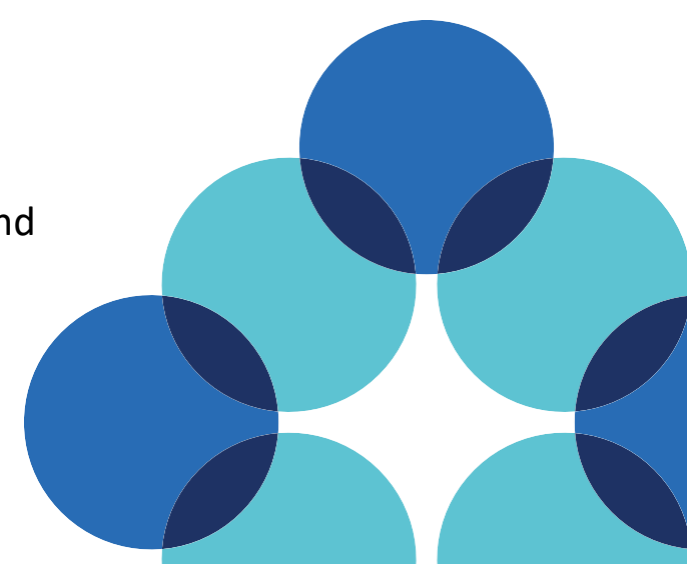

Track 2: Cleanroom Operations & Sustainability

- Contamination control protocols
- HVAC energy optimization
- Gowning procedures and personnel training
- Waste management and sustainable operations

Track 3: Innovation & Emerging Technologies

- Digital twin applications and smart monitoring
- Robotics and automation in sterile zones
- AI-driven data analytics for cleanroom risk profiling
- Advanced materials and surface technologies

Each track is designed to serve engineers, QA/QC teams, operations managers, and decision-makers seeking strategic and technical knowledge.

Meet Cleanroom Manufacturers and Solution Providers

The conference offers targeted opportunities to meet cleanroom manufacturers and system integrators from around the world. Whether you're sourcing:

- Modular build-outs
- Contamination control equipment
- HVAC cleanroom systems
- Real-time digital monitoring solutions

You'll find proven partners to support new builds or facility upgrades in Egypt and across the continent.

Egypt Cleanroom Showcase: Local Projects and Live Demos

As part of the Egypt cleanroom showcase, Pharmaconex will highlight:

- Successful pharma cleanroom projects in Egypt
- Regional design standards aligned with EU GMP
- Live demonstrations of airflow systems and contamination control tools

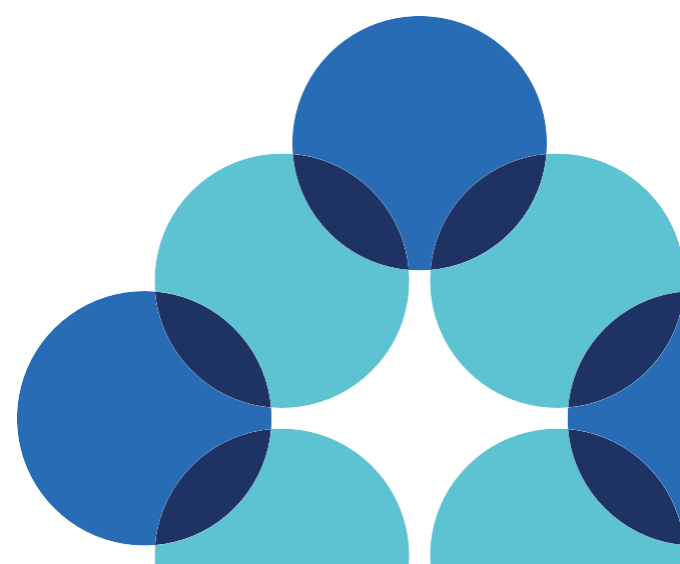

This regional focus makes the event a practical resource for project leads and regulators in North Africa.

Pharma Sterile Environment Technology: What's Next in 2025

Cleanrooms are at the heart of pharma sterile environment technology, and innovation is accelerating:

- AI-driven HVAC balancing
- Integrated cleanroom garment management
- Sensor-based contamination alerts
- Sustainable materials for walls, ceilings, and flooring

With a focus on compliance, efficiency, and automation, the conference equips attendees with forward-thinking strategies for modern sterile production.

Register for the Cleanroom Technology Conference at Pharmaconex 2025

Join us in Cairo to engage with the cleanroom pharma community, discover new tech at the cleanroom industry expo, and learn from global authorities at the Cleanroom Technology Conference.

Attend all three conference tracks: Design & Compliance, Operations & Sustainability, Innovation & Emerging Technologies

- Hear from the top cleanroom speakers in Egypt
- Explore solutions from global cleanroom manufacturers
- Connect with peers focused on sterile pharma excellence in Africa

Taking place from 1-3 of September 2025, [register now at Pharmaconex.com](https://Pharmaconex.com) and secure your seat at Africa's most comprehensive cleanroom conference for the pharmaceutical industry.
